About Island Enterprises Limited

Island Enterprises Limited is a 100% Solomon Island owned company and is one of the leading supplier of industrial, building, marine, construction and agricultural related products and materials in the Solomon Islands.

Established in 1980 by Phillip and Anita Bradford, Island Enterprises Limited has grown from a small operation with a small trade outlet to now a leading supplier in the Solomon Islands.

While the engineering side of the company grew so did the supply side with the acquisition of several quality dealerships, e.g. Chubb, King Gee, Dominion Cables, Chloride-Exide Batteries, Davey, Hard Yakka, Yates, Paramount Safety, Bunnings, Chemical House, BND and Taubmans.

Our retail stores was simply used as a store for our trade staff, however as our products became known for their quality demand increased and the need for a larger store became necessary. Our retail hardware shop now consists of over 7000 trusted line items everything from the latest LED lighting products to the highest standard fire and safety equipment available in the Solomon Islands.

Our store stocks an extensive range of tools hand and power, agronomic supplies seeds and fertilizers, electrical equipment, plumbing equipment, industrial and safety clothing and foot wear, PPE, pest control, pool supplies, marine equipment, water pumps, cleaning products, welding, kitchen appliances, industrial hoses, compressors, cement mixers, small generators, site safety, BBQ'S, tables & chairs, plate compactors, bathroom accessories, automotive batteries and general hardware.

Island Enterprises is known for always being able to supply quality products for the right price, we have a number of well-established suppliers throughout Asia, Australia and the Pacific and with our buying power we are able to supply our wholesale clients with the significant discounts on quality products they need.

Today Island Enterprises Ltd is a truly multi facet company providing goods and services to all areas of business, industry and community in Solomon Islands.

We are committed to continually strive to source cheaper quality products that meet AS/NZ standards.

Through our supply chain we are able to source anything you require be it small or large. We have well established shipping/air freight agents in the Pacific, Australia and Asia to make sure you get what you are after on time.

We truly are a one stop shop.

About Us...

Our firm is officially established on 14th November 1980 and is wholly owned by Philip and Anita Braford (National Proprietorship). Over the past 39 years, we have built our solid reputation on the quality of the goods and services that we offer. Aligning ourselves with suppliers who share in that same vision of providing superior goods and services, has contributed to our success. Island Enterprises Limited now serves more than 150 clients in the Solomon Islands, including Government Departments, Foreign Embassy's, and financial institutions, Large Corporations, Small to Medium Business's, Hotels and Homeowners. Our company takes pride being the distributor of the following brands here in Honiara; FG Wilson, Cummins, Kipor, Genelite, Daikin, Braemer, Davey, Thermo King, Taubsmann, Chubb, etc. Our company strives to bring our customers the quality of goods and services that they deserve. The company's dedication to bringing satisfaction to its customer and providing them with goods and services at a very competent prices are the key factors why our company is still sought after and patronized by different organizations.

Our Mission...

Our Mission is single-minded: to provide the highest standards of products and services, and deliver real value-for-money to our clients.

Selecting us as your contractor assures you of the following benefits

- A complete range of facilities and asset management services with solutions tailored to your requirements
- An in-house Electromechanical workshop for rewinding motors, generators and pumps, and repairing / rebuilding compressors
- Operational excellence at all sites, supported by a training system which focuses on staff development and employee motivation
- Refurbishment and retrofitting of MEP and Civil and associated works for all residential, commercial and industrial system application
- A vast resource of trained and experience technicians, administration and project staff
- The flexibility to adapt to changes and execute decisions quickly and efficiently
- An in-depth working knowledge of the operational requirements and standards demanded by various authorities and their individual departments
- The capability and reliability factor, especially for large projects
- Mobile service units offering 24/7 service which includes mobilized vehicles with materials, spare parts and consumables so as to reduce equipment downtime.
