

WATER SAVING TIPS

- Check for leaks and fix them
- Turn off tap when not in use
- Use basins and buckets to do your washing
- Talk to your family about saving water
- Take short showers
- Wash the car with a bucket not the hose

NON REVENUE WATER

NON REVENUE WATER

Non revenue water (NRW) is water that has been produced and is “lost” before it reaches the customer

We need to work together to reduce leakage, eliminate illegal connections and improve the accuracy in meter reading

1. Supply stable and reliable Service
2. Minimize and manage water losses
3. Save Water
4. Save Money

Causes of Non Revenue water (NRW)?

1. Illegal Connections

2. Leakages

3. Meter Reading error

What we need to do to stop water loss:

- Elimination of illegal connections
- Reduction of leakages
- Correcting and improving meter errors
- Manage water losses

You can help us reduce water loss:

- Report illegal connections
- Report water leaks
- Report faulty meters
- Do not waste water
- Report burst water pipes
